About Harrow Citizens

Harrow Citizens is the newest chapter of North London Citizens and Citizens UK, which organises communities to act together for power, social justice and the common good.

Community Organising is based on the principle that when people work together they have the power to change their neighbourhoods, cities, and ultimately the country for the better.

Harrow Citizens is proud that from its inception, we have been able to include in our alliance institutions from the three Abrahamic faiths and the education as well as charity sectors. We work with people who want to transform the world from what it is to what they believe it should be.

To do this we listen to our members, asking them about their concerns and developing strategies to improve our communities.

We develop the leadership capacity of our members so we can hold politicians and other decision-makers to account on the issues that matter to us.

At the Founding Assembly, we will hear testimonies and presentations on the main issues raised from the Listening Campaign: **Mental Health, Low Wages, Affordable Housing, Welcoming Refugees**. We will challenge the candidates for leader of the council to pledge their support for our asks on these key issues.
